

PRINCE KUMAR – FULL STACK DEVELOPER

 9631982092  prinsipekumar@gmail.com  github.com/prinsipekumar  prinsipekumar.is-a.dev
 Patna, Bihar, India

OBJECTIVE

BCA graduate and MERN stack developer with hands-on experience in building responsive web applications, authentication systems, and database management. Seeking a developer role to apply technical skills, contribute to impactful projects, and grow as a software engineer.

EDUCATION

Advance Diploma in Computer Application (ADCA)

2022 - 2023

iMas Computer Education

- Computer fundamentals, office applications, and practical IT skills
- Grade: A+ (87%)

Bachelor of Computer Applications (BCA)

2023 – 2026

Aryabhatta Knowledge University

- Specializing in computer science fundamentals, web technologies, and database management
- CGPA: 9.05

SKILLS

Languages: JavaScript (ES6+), Java, HTML/CSS, NoSQL (MongoDB), SQL

Frameworks/Tools: React.js, Node.js, Express, Tailwind CSS, Bootstrap, Git, Mongoose, Vite, Postman, VS Code, GitHub, Jasmine, AWS, Render, Vercel, Sevalia, Cloundinary

PROJECTS

myflix

- Developed and deployed a fully functional Netflix clone built with MERN stack featuring AI-powered movie recommendations powered by Gemini AI
- Used React, Zustand, Node.js, Express, MongoDB and the TMDB API, with a Gemini AI layer that asks mood-based questions to recommend the perfect movie in real time
- Complete authentication with JWT and Bcrypt and a clean responsive UI using Tailwind CSS

BookLib

- Deployed a web application that allows users to share and explore their favorite books with others and provides a seamless and visually appealing platform for book enthusiasts
- Built with the MERN stack, JWT authentication, Zustand for state management, and styled using Tailwind CSS

ShyChat

- Deployed a real time chatting app with features like typing indicators, online/offline indicators, & image uploads
- Built using React, Node.js, Express.js and Socket.IO for real-time communication, & MongoDB for data storage
- Includes secure authentication, notifications, emails and scalable architecture for smooth performance

EXPERIENCE

Self-Practice & Project Development

Jan 2026 – Present

- Built multiple full-stack and frontend projects including a Netflix clone, Book Library app, Realtime chatting app, Portfolio and Code Editor website with MERN stack
- Practiced React, Node.js, Express, and MongoDB by developing real-world applications with responsive layouts and interactive UI effects
- Deployed projects on Render, Vercel, Sevalia and GitHub, gaining experience in hosting, version control, and debugging. Continuously learning through self-study, online resources, and hands-on experimentation

ADDITIONAL INFORMATION

Actively solving DSA problems on LeetCode using Java to strengthen algorithmic and problem-solving skills
